

Curriculum Vitae

Name: Derek C. Robertson
Date of birth: 28.12.1976
Position: Senior Quantity Surveyor
Qualifications: BSc Quantity Surveying

1997 – 2001- First Contact - Caledonian University.....

It was in 1999 that Derek and Neil had their first contact. Neil at the white board lecturing and Derek listening intently as the student. Unfortunately this still occurs, all be it that the venue has now changed to the BCC meeting room.

Life at BCC

Derek has been at BCC Ltd for 10 years, the premature white beard has nothing to do with this but the fact that his second wedding anniversary was in 2009. He provides a **solid approach** and has a proven record of success and forms good working relationships with individual contractors.

Aspirations

A senior surveyor, heading up many of his own projects in the practice with a view to helping BCC to continue to raise their profile in **bespoke Architectural projects**.

He has worked closely with Urban Splash and NVA when working on the infrastructure services and road and bridges at **Cardross Seminary**. He has worked closely with Neil over the 10 years and his experience and quantity surveying skills make him stand out in this field.

Librarian

Although not your stereotypical Librarian Derek is responsible for maintaining the office cost resources, which stems from his genuine interest in sourcing unusual and current cost information in the industry, always on the lookout for new types of technology especially if it is green or of course if it saves money.

Off the pitch

Derek has given up rugby since becoming married and substituted **gardening as a pass time/necessity** with many a Saturday afternoon spent behind the lawnmower. He is now a keen spectator at Glasgow / Scotland rugby games whenever possible.

Seems a bit fishy?

If he has a “meeting” on a Friday afternoon and doesn’t reappear where could he be? A keen angler since the age of eight, **if it swims and you can eat it Derek will have a go at catching it.** He even managed to tempt his wife into a bit of sport fishing whilst on honeymoon ending in Derek hooking his largest ever reef fish (a 55-60lb Amber jack) and his wife catching the second fastest fish in the sea a Wahoo! (28lbs.)
